**THE INTRODUCTION** Third time is a charm for Yume and Jimmy. The first two times they met, the timing was off, but destiny pulled through on count three. Yume and Jimmy enjoy exploring their epicurean pursuits. It is not out of the ordinary for Jimmy to take Yume out for a fabulous meal, especially on her birthday. But this night would be different. When they arrived at Il Cielo they had more than a table reserved, Jimmy had a private room covered in rose petals awaiting their arrival. Three vases on the table represented their past, present and future. When Jimmy gained his composure he got on bended knee and proposed.
